

CCL at Home

Homeschool enrichment, on your schedule.

Creative Connections Learning is a homeschool enrichment program in Satellite Beach, Florida. CCL at Home brings our classroom curriculum directly to your family: the same student workbooks, interactive apps, and weekly planners used by our in-person students.

The program is **fully asynchronous**. Start any time, take breaks when needed, and move through the material at your own pace. Each 9-week term can stand alone, and there are 4 terms per year for families who want to continue. Families interested in dropping in to in-person classes should keep pace with our weekly schedule so their student is prepared for each class.

Math & Language Arts

At CCL, full-day students work on Math and Language Arts during our 1:00-2:00 PM study hall using whichever programs their parents choose. Our supplemental ELA programs, **Language Mastery** (levels 4-9) and **Language Foundations** (levels 1-3), are included for full-day students. Language Mastery is fully student-facing (15-20 min/day, 5 days/week) and does not require parent teaching. It also has a fully aligned app. Language Foundations requires parent teaching (10-15 min/day, 5 days/week) and does not have an app.

For at-home families, we recommend daily Math and LA using your own programs. Language Mastery and Language Foundations are available for separate purchase at www.creativeconnectionslearning.com.

Single book (1 term)	\$15
Full level, all 4 books (1 year)	\$45
